“Through our partnership with Owens & Minor, we implemented more than \$25 million in savings—it’s the biggest impact I’ve made on an organization during such a short period of time. Together, we reduced our supply cost per adjusted patient day by more than 11%, and we’re just getting started.”

Matthew Pehrson

Executive Director, Supply Chain Management
Presbyterian Healthcare Services
Albuquerque, New Mexico

Delivering More Savings

What you don't know can save you millions.

You know that Owens & Minor provides best-in-class medical supply distribution services. What you may not know is that we offer a diverse mix of supply chain solutions, innovative technology, inventory management and consulting services.

With this broad portfolio of programs and services for the healthcare supply chain, we're dramatically reducing costs for healthcare systems of all sizes. We're also impacting the metrics used to measure supply chain health—metrics like supply cost per adjusted patient day.

With our signature supply chain assessment, our experts will show you how Owens & Minor can deliver significant and sustainable savings for your organization.
